FCC Container Label Requirements:

- **Label size should be 4"x 6".**
- **Master labels are required, if more than one container per unit, with all internal containers tied to master.**
- **The Prefix Serial Number and the Customer Part Number must be scannable and human readable. It must be a unique serial number not repeating. The first 2 with no more than 6 characters are alpha numeric and approved by FCC. The remaining digits are numeric and assigned by the supplier. (Up to 15 total)**
- **Barcodes need to be 3 of 9.**
